

The Caughlin Ranch Landscape Maintenance crew began their yearly Defensible Space Clearing in May. Their schedule is arduous and two-part. So far, they have worked their way across the common areas, Eaglesnest, Castleridge, Mountainshyre, Vantage Point, Vista Pointe, East Ridge, West Point, and now are moving toward Seasons to Traditions.

They will continue working their way through until they have completed all areas, then they will start over and do another sweep. The first round consists of weed eating and grass pulling. The second round is more detailed – gathering any dead plant material.
